

# Are You Preparing for the New Primary 'Computing' Curriculum 2014?

## Would you like help and support?

### Coordinator Update

1-1 consultancy with the subject coordinator, preparing for the New 'Computing Curriculum' 2014.

What changes? What stays the same? What do you need to put in place?

What resources have you got stored in the cupboard?

What software do you have already?

What will you need?

Are there any free resources online?

What is out there to support you?

*You don't know what you don't know!*

### Staff Update

Whole staff update on the new changes.

What do they mean at each key stage?

What are you doing already and what might be different in the new computing curriculum? What does the new terminology mean? What resources do you already have and what might you need to use?

### Training

If you are confident with the curriculum requirements and have resources to use, the next step is to audit your skills. Do you need any support with training on the resources?

Are you making the most of the resources you already have (e.g. whiteboards), to create **outstanding** ideas for teaching?

## Who am I and how can I help?

*Now working independently supporting nursery and primary schools I have over twenty five years of experience both in teaching, advisory and management roles within a Local Authority and commercially. I have supported ICT in schools across a number of Local Authorities and developed and written materials for many curriculum changes and new initiatives. I have been involved both teaching in and project managing national projects and have over the years probably been involved with most national initiatives involving ICT in primary schools! I have also worked within H.E., for publishing companies and for the Regional Broadband Consortia and supported many schools pre-OFSTED. . My role is very much about working alongside practitioners in a supportive and approachable way, building relationships with schools and staff whilst applying common sense and fun!*

**Michelle Singleton** B.Ed. (Hons) M.A.
